## INTRODUCTION.

---

THE Collection of which the following is the Catalogue was formed by the late CAPTAIN J. HAMILTON, and at his death came direct through his Executors into my possession. It consists of ENGLISH HISTORICAL MEDALS, and MILITARY, NAVAL AND CIVIL DECORATIONS, and also of a very large and important series of FOREIGN, CIVIL AND MILITARY DECORATIONS. It is probably the most interesting series of these classes which has ever been offered for sale in this country. The series of English Historical Medals will be found to be very extensive throughout all the Reigns, from Henry VIII to the present time; but perhaps most complete in those of the Stuart Kings, William and Mary, and Anne. In the Stuart series the Medals of the Dutch artists Müller and Van Abeele are specially remarkable. They are of peculiar workmanship, being embossed and afterwards chased, and in consequence more rare than the usually cast or struck medals. In the series of Military and Naval Decorations several are unique, and others are of the greatest rarity. Among the former are the medals to Captain Callis (lot 465), to Captain Ewing (lot 466), to Captain Wooldridge (lot 467); and among the latter, the Blake Medal (lot 97), the Officer's Medal of the same class (lot 98), the Gold Medal of Pius VI (lot 468), and that for the Battles of the Pyrenees (lot 469), both awarded to Sir George A. Madden. The series of Medals awarded by the East India Company contains many rarities. The English Badges include the Badge of the Order of the Garter (lot 458), the Garter itself (lot 459), and the Badge of the Order of the Bath (lot 460), the rarity of which need not be mentioned. The series of Foreign Civil and Military Decorations will be found to be most interesting and very com-

plete. It contains many Orders of the greatest beauty and rarity, the acquiring of which could only have been accomplished with infinite trouble, and at the same time not without considerable personal interest in Continental and Foreign Countries. All the Decorations, both English as well as Foreign, have their original ribbons, which adds much to their interest.

Before this Catalogue was prepared the Collection was carefully examined, and every Medal, to which the slightest doubt could be attached, was excluded. It is therefore hoped that nothing excepting what is quite genuine has been allowed to pass into the Catalogue. With these exceptions the Collection is as complete as when it came into my possession.

It may be added, that in order to render the series more complete I have added from my own Collection, where specimens are wanting in CAPTAIN HAMILTON'S, many rare and valuable Historical Medals, and amongst the Military Decorations, besides others, the gold Medals for the Capture of Rodriguez, &c. (lot 512) and for the Conquest of Java (lot 514), which are of the extremest rarity.
